Dear Joe,

The New Jersey Turfgrass Association is pleased to inform you that the Hyatt Hills Golf Complex will be awarded NJTA's Environmental Stewardship Award. This award will be presented at The Green Expo in Atlantic City on Wednesday, December 5 during our General Session. We expect about 300 people to be in the audience during this presentation, and if possible we would like you to provide a few photographs that will tell the amazing environmental success story that you've been a part of.

Additionally, we encourage you to invite appropriate people from the team that made Hyatt Hills possible- from the parent company to the commissioners and others you feel appropriate. Though we can't have a troupe of officials speak to the group, we certainly hope to be able to have you and maybe a couple others on stage for the presentation. We will also be taking some photographs of your team at noon, immediately after the session.

For your information: The NJTA Environmental Stewardship Award is presented annually to a person or organization in recognition of a continuing commitment to environmental preservation and conservation.
